

Valard invites interested members of the participating communities to apply for the following position on the Waasigan Transmission Project

Material Yard Operator

Description and Job Duties:

- Operating Loader, Zoom Boom (telehandler) and Skidsteer
- Loading and unloading trailers
- Other duties as required by the Materials Manager
- The role is seasonal and will experience gaps in work
- Selected candidates will need to sign up and maintain union membership

Requirements:

- Maintain a minimum Class G2 Driver's License
- Minimum 3 years experience operating heavy equipment such as a loader & zoom boom (Telehandler)
- Minimum 2 years experience loading and unloading large materials from trailers
- Experience with load securement
- Experience working in a busy environment with personnel and equipment
- Experience handling sensitive and high value electrical materials (e.g. conductor & OPGW reels)
- Ability to work in all weather conditions
- Ability to work in a team
- Will be required to live in a remote camp environment

This role is temporarily based in Thunder Bay. Initially, the successful candidate will work Monday – Friday, 10-11 hours a day. This role will transition to a 20 days on and 8 days off rotation to meet project needs. **Selected candidates will need to sign up and maintain union membership with the International Union of Operating Engineers**
